## Lift Chairs

Lift chairs are available in many styles, fabrics and colors. They are also available with extra-wide seat cushions and extended weight capacities. Call us or visit our store for details.

## Walkers/Rollators

The added stability of a **walker** offers greater safety and confidence to perform daily living tasks.

**Rollators** offer more maneuverability than a walker and allow the user more independence in and outside the home.

## Features and options:

## CPAP/BiPAP

CPAP and BiPAP machines have evolved to include advanced technology that has resulted in smaller, lighter units that provide gradual air pressure adjustments, heated humidity and a quieter treatment experience. We can help assess your needs and provide the appropriate machine.

## Masks

We carry a wide variety of masks to help CPAP users find their personal level of comfort.

## Oxygen Concentrators

Concentrators provide a safe and efficient way to improve the quality of life for individuals who require supplemental oxygen. Concentrators weigh less than 50 pounds and will be serviced and maintained by your home care provider.

## Home Transfilling Systems

Oxygen concentrator transfilling systems give users the freedom to fill their own portable cylinders easily and safely. Several smaller tanks can be filled and transported for an extended time away from home.

## Nebulizers

Nebulizers are designed to deliver respiratory medications quickly and efficiently. A unique micropump operates silently and smoothly to deliver medication accurately every time. Fun character masks and nebulizer units can make treatment time more enjoyable.

- Non-portable nebulizers/compressors
- Portable nebulizer compressors
- Standard jet nebulizers
- Ultrasonic nebulizers
- Pediatric nebulizers
- Reusable nebulizers
- Disposable nebulizers

McKnight Medical carries wrist, ankle, knee, back and shoulder braces, as well as compression stockings and socks. Our trained and qualified staff will work with you to find the support you need.

## Rehabilitative Support

Wraps and braces provide effective rehabilitative support for sports injuries and other debilitating joint and muscle conditions.

## Compression Garments

Any condition or procedure that damages your lymph nodes or lymph vessels can cause lymphedema. Lymphedema is caused by a blockage in your lymphatic system that can cause swelling in the arms and legs. The blockage prevents lymph fluid from draining well, and as the fluid builds up, the swelling continues. Compression garments are very effective in controlling lymphedema. We offer lymphedema sleeves, compression stockings, and more to meet your unique needs.
